Your Authorized **HOLLSTEIN** Dealer
Harveys Lake, Pa
1 877 RING AET 570-639-2344

14,000 lb. capacity 4 post lift with durable chain driven technology. The runways can handle a long pick-up truck up to 190" wheel base as well as narrow track cars. The 21" wide runways are spaced up to 44" apart to accommodate 2 rolling jacks. The approach ramps are 3' long to allow for a smooth gradual incline to accommodate low front spoilers. 105" width between columns suite vehicles with protruding mirrors.

Turn tables and 2 Rolling jacks with 6,000 or 8,000 lb. lifting capacity included

Chain driven for strength and durability.
Pneumatically operated safety locks engage and lock/unlock every few inches. 3 front turn table position and built in /flush mount slip plates accommodate short as well as long wheel base vehicles.

One piece non-skid diamond plate tracks
6,000 or 8,000lb. capacity rolling jacks
